Capital City Nissan Of Topeka Service Commitment

Excellence at every turn... and every straightaway

Our dealership's primary goal is to satisfy every customer at every opportunity. You visit our service department regularly, and we have developed a number of ways to make your visit more comfortable and informative. We know that you want straight answers, and that's the only way we will deliver it to you.

We understand that your knowledge of your vehicle and its necessary repairs is probably not on par with the understanding that your technician has. In order to be sure that his findings and reporting is as clear and concise as possible, we use this Vehicle Information Booklet as a tool to help us communicate your vehicle's condition to you.

Our technicians are the most qualified to work on your vehicle. They have trained extensively, and partake in continuing education regularly to be sure that they are up to date on any changes and improvements handed down from the manufacturer. Our service advisors strive to make your experience with us a pleasant one. They are here to attend to your automotive needs as well as communicate effectively between your technician and you.

Please make yourself comfortable in our waiting area. Watch some TV, use your laptop with our free WI-FI access or just relax and enjoy the quiet. Our courtesy shuttle can take you shopping, to a movie or home if you prefer.

We appreciate your business and will continue to strive for excellence in everything we do for you.

Multi-Point Inspection Checklist

Did your Service Advisor review the results of this multi-point inspection checklist with you?

VIN/TSBs/RECALLS/DTCs/MAINTENANCE
1. VIN Matches Other VINs on Vehicle and Paperwork/Proper Attachment (Original/No Alterations
2. Vehicle has Required State Decals (Emission, Inspection, Etc.)
3. All OEM Service Campaigns and Recalls have been Performed
4. Check, Document, Repair and Retest Any Diagnostic Trouble Codes
5. Oil Change/Scheduled Maintenance Performed
CONSULT III PLUS
6. Check for All DTC Sub-systems Inspection
7. Perform Applicable Software Updates
8. Perform Idle Air Volume Learn (IAVL) (If Required)
POWERTRAIN/CHASSIS - Engine Mechanical Condition
9. Fluid Leakages (Record Where and What is Leaking)
10. Oil in Air Cleaner (Can Indicate Excessive Blow-by or Faulty PCV System)
11. Water in Oil (Check Underside of Oil Filler Cap)
12. Engine Oil (Condition/Level)
13. Timing Belt Replaced per OEM Maintenance Schedule
14. Cylinder Power Balance - Run Diagnostics Address Error Codes (If Applicable)
15. Fluids (Condition/Levels)
16. Vacuum Hoses (Condition)
17. Engine Mounts (Condition)
POWERTRAIN/CHASSIS - Cooling System
18. Hoses (Condition)
19. Coolant (Condition/Level/Leaks/Freeze Point/Voltage/Corrosion)
20. Radiator (Condition/Tube/Fins) Pressure Test Cap/System
21. Cooling Fan/Fan Clutch/Fan Motor (Condition/Operation/Auxiliary Fan Operation
22. Water Pump (Noise/Leaks)

	23. Recovery Tank (Condition/Fluid Level/Sensor Operation)		
	24. Belts (Condition/Cracks/Glazed/Frayed/Adjustment)		
POWERTRAIN/CHASSIS - Fuel System			
	25. Fuel Pump Noise/External Fuel Pump Leakage		
	26. Fuel Lines/Hoses (Condition/Check for Signs of Leakage)		
	27. Fuel Filter (Condition/Replace per Maintenance Schedule)		
	28. Air Filter (Condition/Replace per Maintenance Schedule)		
	29. Check Injection Pump Timing (Diesel)		
	30. Perform Boost Pressure Test (Turbo Diesel)		
	31. Check Vacuum Pump Operation (Diesel)		
	POWERTRAIN/CHASSIS - Electrical System		
	32. Remote Keyless Entry Fob (Operation/Battery Condition)		
	33. Wiring (Condition)		
	34. Starter Operation (Draw/Amperage)		
	35. Alternator Charging (Voltage and Amperage Output) Record Regulated/Maximum		
	36. Ignition System Operation		
	37. Battery Condition: (Fluid/Level/Corrosion/Voltage/Load Test) Record Readings (Required Nissan Battery Tester)		
	38. Check Pre-Glow System (Amperage Draw-Diesel)		
	POWERTRAIN/CHASSIS - Transmission/Differential/Transaxle/Transfer Case		
	39. Transmission System (Condition/Operation)		
	40. Automatic Transmission/Transaxle Fluids (Condition/Level/Leaks/Fill or Change Oil and Filters)		
	41. Manual Transmission/Drive Axle/Transfer Case Fluids (Condition/Level/Leaks/Fill or Change Oil)		
	42. Transmission Mounts (Condition/Cracked/Oil Soaked/Broken/Replace Worn Mounts)		
	43. Transfer Case (Operation)		
	44. Universal Joints/CV Joints/Boots (Condition)		
	45. Differential/Drive Axles (Condition/Leaks/Damage)		
	46. Clutch (Operation/Fluid Level)		
	POWERTRAIN/CHASSIS - Hybrid System		
	47. Inverter Coolant (LEvel/Condition/Concentration)		
	48. Hybrid Battery (Charge Level)		
	49. 12-V Auxiliary Battery (Correct Application)		
	50. Inspect Integrity of Protective Shields for High Voltage Harness Under Vehicle from HV Battery to Engine Compartment		
	51. Hybrid Electronic Control Unit (Run Diagnostic)		
	52. Multi-Information Display (Operation)		
	53. Diagnostic Scan (Check for Codes and Software Updates)		
	POWERTRAIN/CHASSIS - Suspension/Steering		
	54. Tires (Check for Uneven Wear)		
	55. Steering Suspension (Fluid/Condition/Level of Fluid)		
	56. Steering Gear and Linkage (Condition/Leaks/Boots)		
	57. Power Steering Pump and Hoses (Leaks/Noise/Operation)		
	58. Suspension System/Control Arms/Ball Joints/Bushings (Condition)		
	59. Tie Rods and Idler Arm (Condition)		

		60. Sway Bars/Links/Bushings (Condition)	
		61. Springs (Condition/Ride Height)	
		62. Struts/Shocks (Leakage)	
		POWERTRAIN/CHASSIS - Brakes/Exhaust System	
		63. Brakes/Calipers/Lines Operate Properly with No Signs of Damage	
		64. Brake Fluid (Level/Condition Top Off as Necessary)	
		65. LF <u>8</u>

Additional Service Recommendations

Red: requires immediate attention.

In the process of inspecting your vehicle for safety and reliability, your technician **CODY M** made the following observations and recommends that you do the necessary repairs to resolve these issues.

Yellow: in need of attention soon.

Tire Balance and Rotate

Item Description

Balancing the vehicles tires are necessary to make sure the proper weight of the vehicle is distributed to the proper tire. Tire rotation helps protect tires against uneven wear by moving the tire location on the vehicle. Most tires will exhibit some form of wear based on numerous factors including: wheel alignment, miles driven, driving style and habits, and tire location on the vehicle. By moving or "rotating" the tires as recommended by the vehicle manufacturer, tires may wear more evenly; helping extend the life of the tires.

If not properly balanced, a vehicle's tires can experience abnormal wear which can significantly decrease the life of the tire. If not done, you will experience vibration in the steering wheel at certain highway speeds. Also, vibration will occur in the seat or floorboard at certain highway speeds. Tire wear will become scalloped or cupped.

Cabin Filter & In-Cabin Micro Filter: Recommended every 15,000 miles per owners manual. The cabin air filter help keep debris from entering the blower motor and HVAC system causing damage. It also filters out a lot of pollen and dirt to help with allergies. Allowing for a clean, fresh, and healthy air to come into the cabin.

Item Description

Your Cabin Filter and In-Cabin Micro Filter should be inspected at each service and replaced every other oil change or after 12 months.

Your cabin and in-cabin micro filter may need replacement if:

- Your heating and cooling system has reduced airflow or there are bad odors or a musty smell
- There are visible signs of dirt, dust or other pollutants

Reason

The cabin filter / in-cabin microfilter function like your furnace filter at home. They clean the air by trapping pollen, bacteria, dust and exhaust gases that may find their way into a vehicle's HVAC system. Dirty filters reduce your heating and cooling efficiency

Engine Air Filter Replacement

Item Description

The air filter prevents dirt and debris from entering the engine, which could otherwise cause premature engine wear.

Reason

If not replaced, poor gas mileage and premature engine wear will result.

Front Wipers

Item Description

Your Wipers should be inspected at each service interval and replaced when indicated.

Indicators shock replacement may be needed are:

- If blades are cracked, become misshapen or lose their flexibility
 - If they do not wipe properly

Replacing your wiper blades when recommended enhances safety, increases visibility and reduces the chance of damage to your windshield.

Air Filter

*Windshield Wiper Blade - (Rear)

Item Description

Many vehicles are equipped with rear wipers; most commonly, sport utility vehicles, hatchbacks and station wagons. The rear wiper allows the driver to have visibility through the rear window. This is important during bad weather or dirty conditions.

Reason

The rear windshield wiper will need to be replaced occasionally. When you notice the wiper streaking on the glass or becoming worn, remove it immediately and have it properly replaced.

Alignment Check: to ensure that no abnormal wear occurs on the tires for longer tire life and to ensure vehicle drives straight

Item Description

Alignment is one of the key maintenance factors in getting the most tread life and performance from your tires. In addition, wheel alignment provides safe, predictable vehicle control as well as a smooth and comfortable ride that's free of pulling or vibration. Today's modern suspensions require a precise four-wheel alignment that can only be achieved through a modern alignment system. This applies to both front and rear wheel drive vehicles. Aligning a car or truck involves the adjustment of the vehicle's suspension, not the tires and wheels. The direction and the angles that the tires point in after the alignment is complete, however, are critically important. There are four factors involved in setting the alignment to specification: caster, camber, toe and ride height.
